MARCH 8, 1878. The city is alive with excitement to-day in view of the election to take place to-morrow for the ratification or rejection of the Petersburg railroad bill. There is almost as much feeling manifested as is usually the case on the eve of a municipal contest. The list of voters is being rapidly increased by the payment of the State capitation-tax for 1877, and quite a large vote will be polled. It is worthy to note the fact that the negroes are showing great interest in the matter, and are to-day crowding the Treasurer's office to settle their tax accounts and qualify themselves for voting. It is believed they

will generally oppose the measure. The chairman of the Republican Executive Committee has called a meeting of the Republican party to be held to-night to discuss the bill, when it is understood Peter F. Morgan and J. H. Van Auken and others will speak against the bill, and Senator W. favor it. The Republicans certainly hold the balance of power in to-morrow's election, and as they vote in a body so the elec-

A great crowd assembled in the Academy of Music last night to hear the merits of the railroad bill discussed by Major Charles S. Stringfellow and Colonel Samuel B. Paul. Never before have so many people met on any one occasion in that building. The former opposed and the latter favored the bill. The speeches of both gentlemen were able and exhaustive, and the discussion, which lasted three hours, retained its interest to the audience to the close. There seems to be no settled plan as to

the commissioners to be voted for under this bill. While a number of gentlemen in each ward are willing to serve on the commission, no nominations have been made, and the people will have to vote for whom they The contest in Third Ward will be Hamilton. In the Fourth Ward Mr. Alexander Donnan, who was called out by a number of citizens, declines to serve. The Conservative party of Petersburg is

just now without a working head. Senator William E. Hinton, Jr., last night resigned his position of city superintendent, and nearly all of the members of the Executive Committee have resigned also. A new committee and superintendent will have to be chosen before the party can go into the spring municipal campaign, and it is to be hoped the proper men may be selected for such responsible but thankless work as the committee has to perform. The last meeting of the railroad canvass

will be held to-night, when Senator Hinton and General William Mahone will address the people in favor of the purchase of the road by the city, who will reply in detail to the figures and arguments of Major stringfellow, presented last night. Rev. J. W. Kood (colored), of North Carolina, Bishop of the A. M. E. Zion Church, will preach twice here on Sunday.

He is one of the ablest men of his race. Bishop Whittle will arrive in the city this burches. He will have five classes to confirm-one at Grace church to-night, one at each at St. John's, St. Stephen's, and Blandford on Sunday.

Senator W. N. Stevens has received the appointment of assistant collector of internal revenue of this district, under Colonel Brady, and his commission will be made out as soon as his bond is fixed. Mr. Edward S. Gregory, of this city, has

a paper in this week's Philadelphia Times on the siege of Vicksburg. It is brilliant in style, graphic in description, and many interesting facts in connection with that memorable siege not heretofore published are A special meeting of the Common Coun-

upon a claim put in against the city by the Petersburg railroad as in part off-set to the city's claim for back taxes against the road. Some years ago, it seems, the railroad company paid to the United States Government dends drawn by the city. It is claimed that this amount should properly have been deducted from the city's dividends, and that in point of equity and justice, if not in law, the city should return that amount to the company. The Finance Committee had the subject before them yesterday afternoon, and decided to convene the Council for instructions. The city's claim for past taxes on the personal property of the railroad is \$11,093.75. It has in addition a judgment against the road for the taxes of 1871-'72 for \$4,820, which, with interest to date, amounts to about \$6,000-making the total amount of the claim about \$17,000. The company has the money in hand to pay should the United States Court in Richmond so order; but the receiver informed the Finance Committee that he could not recommend the payment of the city's claim unless the offset-claim of the road was allowed.

After considerable discussion the Council authorized the Finance Committee to instruct the City Attorney (who is attending the United States Court), by telegraph, to allow the railroad's claim, provided the court will order the payment of the city's claim for taxes; and these instructions were

at once telegraphed. The authorities of Mount Level church (colored), in Dinwiddie county, warn the public against one Hamlin Noland, who is said to be travelling about representing himself as a preacher. He was recently expelled from that church, after an ani-

In the Hustings Court yesterday John Hules, lately an employé on the Chesapeake and Ohio railroad, was tried for two cases of obtaining goods from Barton & Oberdorfer, and giving orders for the money on his pay after he had left the road. He was

The peace news from Europe is rather discouraging to our farmers, as there is a large quantity of wheat on hand in this county awaiting more favorable prices; and the same is the case, I am told, all through PENN.

Mr. Wade is said to have taken much comfort in his belief in spiritualism. He looked upon death as a mere change of scenes, and his last hours were peaceful and happy. One of his peculiarities was a detestation of ceremony; he would often decline invitations to visit where he would have to wear a "starchy" appearance, as he termed it. Then another striking peculiarity was the dread he entertained against sitting for a picture. He used to often say that he had as much respect for a dentist's office as he as much respect for a dentist's office as he N O T I C E. had for a photograph gallery.

Raltimore Conference Methodist Episcopal Church South-Second Day's

A good deal of routine business was done. At intervals during the call of the churches or reports the Conference was interrupted by the arrival of the visiting clergymen, who were introduced to the delegates by Bishop McTyeire. One of these was Bishop Doggett, D. D., of Richmond, who has held episcopal dignity in the Methodist Episcopal Church South for twelve years.

Dr. Redford, the book agent, made a very gratifying exhibit of the Book Concern under his supervision, and stated that every department of the business was in excellent Dr. McFerrin, missionary secretary, said

that he was well satisfied with the collections raised for his branch of the church service during the year, and expressed a hope that the contribution of the present year would show a favorable comparison. The pulpit of St. Paul's church was occupied last night by Rev. J. W. Duffy, of Salem, Roanoke district, who delivered a sermon on the labor of saving souls.

This morning the work of calling on the districts for reports will be resumed. There still remains to be heard from Winchester, Rockingham, Roanoke, Lewiston, Lexington, and Moorefied districts.—Baltimore American, 8th.

It is compounded exclusively from the juices of carefully-selected barks and herbs, and so strongly concentrated that it is one of the GREATEST CLEANS-ERS OF THE BLOOD that is or can be put together. VEGETINE does not stop with breaking CHILLS AND FEVER, but it extends its wonderful influence into every part of the human system and entirely eradicates every taint of disease. VEGETINE DOES NOT act as a powerful cathartic or debilitate the bowers, and cause the patient to dread other serious complaints which must inevitably follow; but it strikes at the root of disease by PURIFYING THE BLOOD, restores the LIVER AND KIDNEYS to healthy action, REGULATES THE BOWELS and assists NAcil was held this morning to take action TURE in performing all the duties that devolve upon

POLICE TESTIMONY. BOSTON, November 18, 1875.

H. R. Stevens, Esq. : Dear Sir,-During the past five years 1 have had ample opportunity to judge of the merits of VEGE-TINE. My wife has used it for complaints attending a lady of delicate health with more beneficial results than anything else which she ever tried. I have given it to my children under almost every circumstance attending a large family, and always with marked benefit. I have taken it myself with such great benefit that I cannot find words to express my unqualified appreciation of its goodness.

While performing my duties as a police officer in this city it has been my lot to fall in with a great deal of sickness. I unbesitatingly recommend VEGETINE, and I zever knew of a case weere it did not prove all that was claimed for it. Particularly in cases of debilitated or impoverished state of the blood its effects are really wonderful; and for all complaints arising from an impure state of the blood it appears to work like a charm, and I do not believe there are any circumstance; under which VEGETINE can be used with injurious results, and it will always afford me pleasure to give any further information as to what I know about VEGETINE.
